DATA EXTRACTION FROM THE ACRF ARCHIVE: MORE PROGRESS TOWARD CUSTOMIZED DATA DELIVERY FOR THE USERS

Show me... – Existing Functionality

- Multiple interfaces (Data, Catalog, Thumbnail Browsers, and more)
- Data Browser supports new and experienced users
- Datastream pathway is most efficient expert interface

Tell me more! – New Functionality

- Offline data extraction (select, submit, email notification, retrieve)
- Plot Browser
- Rationalize the user interfaces, standardize menus
- Modular add-ons

You tell us?? – Future Functionality

- More complex data extraction functions (measurement merges, complex queries)
- More pre-processing of data into new data and information products
- Easier access to datastream structural history
